Concept #5: The Rotator

Craftsmen's Rotator Concept spins a gooseneck trailer 360°. The ultra maneuverable, light weight miniature gooseneck trailer requires minimal set-up and dismantle. The trailer is ideal for a light sampling or product demonstration vehicle. The rear of the trailer hinges up, becoming a canopy, creating an approximately 6-foot covered area.

Basics:

Size: Closed and detached, roughly 15'L x 6'W x 8'T
